

Notes:

- 0/ A classic Golden Ratio based derivative of the Mar-Ken10.3/10p designed for Mark Audio Alpair 10.3 or Alpair 10p (only change is width of vent spacer_1/ to be built as mirror imaged pairs – drivers are mounted off-centre
- 2/ All panels 18mm
- 3/ Vents are 15mm high, vent spacer is 70mm A10.3 or 30mm A10p wide and centrally located
- 4/ brace shape is only suggestive – prime purpose is to brace driver, it needs to be about 35-40% holes. (ie if you have to mount a terminal cup in the middle, you'll want to make sure the brace allows clearance), It is centrally mounted on the driver magnet
- 5/ Don't forget to angle cut the back of the driver cut-out to give it breathing room
- 6/ All internal panels lined with ~1/2" (12mm) cotton or wool felt (preferred), 3/4" (19mm) poly-fluff batting, or 1" (25mm) fiberglass Note that it is hard to get into the box after it is sealed up (means terminals need to be solderable from outside the box as well)

**Classic Golden Ratio
Mar-Ken10.3 / 10p ov8**
